

SAURABH KUMAR

PHP Developer (Laravel | MySQL | Full Stack)

Pooranpur Lambhua, Sultanpur, U.P. (222302) | +91-7705839870 | saurabhkumarssp@gmail.com | [LinkedIn](#) | [GitHub](#)

PROFESSIONAL SUMMARY

PHP Developer with 1.5 years of hands-on experience building full-stack web applications using PHP, Laravel, and MySQL. Skilled in CRUD development, RESTful architecture, and OOP-based design. Independently built and deployed 10+ live projects, including e-commerce, corporate, and training-institute websites. Seeking to grow as a full-stack developer while contributing to scalable, real-world web solutions.

WORK EXPERIENCE

Full Stack PHP Developer — Digicoders Pvt. Ltd. 1.5 Years

- Built and maintained CRUD modules in PHP Laravel, handling data insertion via both raw SQL queries and Eloquent ORM.
- Designed and managed MySQL databases using phpMyAdmin, ensuring data integrity across application modules.
- Applied PHP OOP principles to build reusable, maintainable backend components.
- Collaborated with the development team to deliver features on schedule in an agile environment.
- Independently developed and delivered 10+ live client websites, including corporate, e-commerce, and training-institute platforms.

Web Development Intern — Digicoders Pvt. Ltd. 6 Months

- Assisted in developing and maintaining PHP Laravel modules under senior developer guidance.
- Gained hands-on exposure to MySQL database design, query optimization, and debugging.
- Supported the team on live client website builds, learning production-grade coding practices.

EDUCATION

Diploma in Computer Science and Engineering — Government Polytechnic, Jaunpur · Percentage: 74%

- 3-year full-time diploma covering core CS fundamentals — Data Structures, DBMS, OOP concepts, Web Technologies (HTML/CSS/PHP), and Computer Networks.
- Built academic projects applying database design and web-development concepts learned during the program.

Intermediate (12th) — Patwa Adarsh I.C. K.P.M.B.R, Rampur, Sultanpur · Percentage: 70.2%

High School (10th) — Moti Singh Inter College, Saray Bhikhari, Pratapgarh · Percentage: 82%

CERTIFICATIONS

PHP & Laravel Web Development Training — DigiCoders Technologies Pvt. Ltd. 45 Days

- Completed an intensive training program covering PHP fundamentals, Laravel basics, and MySQL database operations.

TECHNICAL SKILLS

- Programming:** PHP (Core), Laravel Framework, PHP OOP
- Frontend:** HTML5, CSS3, Bootstrap, JavaScript (Basics)
- Database:** MySQL, phpMyAdmin, Raw SQL, Eloquent ORM
- Tools & Platforms:** Visual Studio Code, Git & GitHub, MS Office
- Concepts:** RESTful CRUD Development, MVC Architecture

PROJECTS

RaeBioMed Global (<https://www.raebiomedglobal.com/>)

- Developed a corporate website for a healthcare/biomedical client using PHP & MySQL.
- Built an admin-managed dynamic content system so the client can update pages without touching code.
- Structured pages for company profile, products/services, and contact/inquiry handling.

Mahila Pragati Prashikshan Sansthan (<https://pragatimps.org/>)

- Built an informational website for an NGO to showcase its programs, activities, and impact.
- Implemented an editable content layer so program details and updates can be maintained easily.
- Focused on a simple, accessible layout suited to a non-technical audience.

Shopping Club Ecommerce Website (<https://scib2b.com/>)

- Built an e-commerce platform in PHP & MySQL with product listing, category, and cart functionality.
- Implemented order management — order placement, status tracking, and admin-side order handling.
- Designed the product/order database schema and connected it via raw SQL and Eloquent ORM.

Courier Website (<https://shipperj.scib2b.com/>)

- Built a courier/shipment tracking web application using PHP & MySQL.
- Implemented shipment status updates and a tracking lookup for customers by tracking ID.
- Designed the backend to manage shipment records, sender/receiver details, and delivery status.

Prasthan Travel Website (<https://prasthantravels.in/>)

- Developed a travel agency website with service listings (packages, destinations, offers).
- Built an inquiry-handling form so visitors can request quotes or book consultations.
- Implemented an admin panel to manage travel packages and customer inquiries.

Digicoders Academy (digicodersacademy.com)

- Built a training-institute website covering course listings, batch details, and admissions info.
- Implemented a dynamic content-management layer so course/batch content stays up to date.
- Developed backend modules in PHP & MySQL following the same MVC structure used across client projects.

Digicoders Gorakhpur (digicodersgorakhpur.com)

- Developed a regional branch website for the software training institute in Gorakhpur.
- Reused and adapted the core PHP/MySQL codebase for branch-specific courses and contact details.
- Implemented lead-capture forms for inquiries and course enrollments.

Digicoders Kanpur (digicoderskanpur.com)

- Developed a regional branch website for the software training institute in Kanpur.
- Adapted the shared PHP/MySQL platform for branch-specific content and local contact details.
- Implemented lead-capture forms for inquiries and course enrollments.

Software Company In Lucknow (softwarecompanyinlucknow.com)

- Built a corporate website for a Lucknow-based software development company.
- Developed pages for services, portfolio/case studies, and client contact/inquiry handling.
- Implemented the backend in PHP & MySQL with an admin-editable content structure.

Best Summer Training In Lucknow (bestsummertraininginlucknow.com)

- Built an informational website promoting summer training programs for students.
- Implemented course/program listings along with an inquiry and registration form.
- Developed the site using PHP & MySQL with a simple, easy-to-navigate structure.
